Professional Summary

Full Stack Web Developer specializing in MERN stack development with hands-on experience building scalable and responsive web applications using React.js, Node.js, Express.js, MongoDB, and TypeScript. Skilled in REST API development, JWT authentication, cloud deployment, and modern frontend architecture. Strong understanding of clean code practices, reusable components, and performance optimization.

Work Experience

Full Stack Web Developer Intern Jul 2025 – Nov 2025
Media City Corp, Bhilwara, India

- Designed and developed RESTful APIs using Node.js and Express.js, improving backend performance and efficient data handling.
- Built responsive and user-friendly interfaces using React.js, enhancing cross-device compatibility and overall user experience.
- Implemented secure JWT-based authentication and role-based access control to improve application security.
- Developed admin panel features for dynamic content management, reducing manual effort and improving operational workflow.
- Conducted API testing and debugging using Postman, identifying issues and improving backend reliability.
- Collaborated using Git and GitHub for version control, ensuring smooth code integration and development workflow.

Core Skills

Programming:	JavaScript, TypeScript, HTML, CSS
Frontend Development:	React.js, Next.js, Responsive Design, Bootstrap, Tailwind CSS, Material UI
Backend Development:	Node.js, Express.js, REST APIs
Database:	MongoDB, MongoDB Atlas, PostgreSQL
Concepts:	JWT Authentication, MVC Architecture, Protected Routes
Tools:	Git, GitHub, Postman, Docker, Vercel, Render
Design:	Figma
AI Tools:	GitHub Copilot, Cursor AI, Claude AI, ChatGPT, Codex

Projects

AI Rasoi – Cook Smarter with AI Next.js, TypeScript, AI Integration

- Developed an AI-powered recipe generation platform that suggests recipes based on available ingredients and user preferences.
- Built responsive and modern user interfaces using Next.js, TypeScript, and Tailwind CSS for seamless cross-device experience.
- Integrated AI-based recipe recommendation functionality to generate smart cooking suggestions dynamically.
- Designed reusable frontend components and optimized application performance for fast page loading.
- Implemented clean UI/UX design with intuitive navigation and interactive recipe discovery features.
- Deployed the application on Vercel with scalable frontend architecture and optimized production builds.

Wedding Website Template MERN Stack, TypeScript

- Developed a responsive full-stack wedding website with modern UI/UX design for mobile and desktop platforms.
- Built backend APIs using Node.js and Express.js to manage dynamic content and website functionality.
- Designed and implemented MongoDB database schemas for scalable and flexible data storage.
- Developed reusable React components and structured routing for scalable frontend architecture.
- Built core website modules including homepage, event pages, gallery, and dynamic content sections.
- Currently integrating admin dashboard features for real-time website content management.

Professional Training

Full Stack Web Development (MERN) Jan 2025 – Jul 2025
Grass Pvt. Ltd., Jaipur

- Completed hands-on training in MERN stack development by building full-stack web applications.
- Developed projects including a blogging platform and recipe website with authentication and REST APIs.
- Implemented responsive UI using Bootstrap and Tailwind CSS frameworks.
- Applied Git-based workflows for version control and collaborative development.

Education

B.Tech in Computer Science 2019 – 2023
Arya College of Engineering & IT, Jaipur
CGPA: 7.77
