Portfolio — github.com/Sammy6543 — LinkedIn

Full Stack Web Developer specializing in MERN Stack with 6+ months of internship experience. Proficient in React.js, Next.js, Node.js, Express.js, MongoDB, and TypeScript. Skilled in RESTful API development, JWT authentication, RBAC, cloud deployment, and performance optimization.

TECHNICAL SKILLS

Languages
JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend
React.js, Next.js, Bootstrap, Tailwind CSS, Material UI, Responsive Design

Backend
Node.js, Express.js, RESTful API Design, MVC Architecture

Databases
MongoDB, MongoDB Atlas, PostgreSQL

Auth & Security
JWT Authentication, RBAC, Protected Routes

Tools & DevOps
Git, GitHub, Docker, Postman, Vercel, Render, Figma

AI Dev Tools
GitHub Copilot, Cursor AI, Claude AI, ChatGPT, Codex

Methodologies
Agile, Code Review, API Testing & Debugging, Version Control

EDUCATION

B.Tech – Computer Science
Arya College of Engineering & IT
Jaipur, Rajasthan 2019–2023
CGPA: 7.77 / 10

TRAINING

Full Stack Web Dev (MERN)
Grass Pvt. Ltd., Jaipur
Jan 2025 – Jul 2025

- Built full-stack apps with authentication and REST APIs.
- Developed responsive UIs with Bootstrap and Tailwind CSS.
- Applied Git-based workflows for collaborative development.

WORK EXPERIENCE

Full Stack Web Developer Intern
Media City Corp, Bhilwara **Jul 2025 – Nov 2025**

- Designed and developed RESTful APIs using Node.js and Express.js, improving backend efficiency and enabling scalable data handling.
- Built responsive React.js interfaces with cross-device compatibility, enhancing overall user experience on mobile and desktop.
- Implemented JWT authentication and role-based access control (RBAC), strengthening application security.
- Developed admin panel features for dynamic content management, streamlining internal workflows and reducing manual effort.
- Tested and debugged APIs with Postman; collaborated via Git and GitHub for clean version control and code integration.

PROJECTS

AI Rasoi – Cook Smarter with AI
Live Demo

Next.js, TypeScript, Tailwind CSS, AI Integration, Vercel

- Built an AI-powered recipe generation platform suggesting personalized recipes based on ingredients and user preferences.
- Integrated AI recommendation engine for real-time, intelligent cooking suggestions, improving user engagement.
- Designed reusable components and responsive UI; deployed on Vercel with optimized production builds.

Wedding Website Template
Live Demo

MERN Stack, TypeScript, MongoDB, React.js, Node.js

- Built a full-stack responsive wedding website with RESTful APIs, MongoDB schemas, and dynamic content sections.
- Created reusable React components with structured routing; currently integrating admin dashboard for real-time CMS.
