Programming:	JavaScript, HTML, CSS
Frontend Development:	React.js, Next.js, Responsive Design, Bootstrap, Tailwind CSS, Material UI
Backend Development:	Node.js, Express.js, REST APIs
Database:	MongoDB, PostgreSQL
Concepts:	JWT Authentication, Protected Routes
Tools:	Git, GitHub, Postman
Design:	Figma
AI Tools:	Cursor, Copilot, Antigravity, Claude, Grok, ChatGPT, Google Stitch

Projects

Wedding Website Template (React.js, Node.js, TypeScript, MongoDB)

- Developed a responsive full-stack web application using React.js, ensuring a seamless user experience across mobile and desktop platforms.
- Built a backend using Node.js and TypeScript to handle RESTful APIs and manage dynamic content efficiently.
- Designed and implemented MongoDB database schemas for scalable and flexible data storage.
- Completed core frontend and backend modules, including homepage, event pages, and gallery features.
- Currently developing an admin panel to manage events, gallery, and website content dynamically.
- Working on integrating frontend with backend APIs and admin dashboard for real-time content updates.
- Implemented reusable components and routing, ensuring a scalable and maintainable frontend architecture.
- Optimizing performance and UI rendering to improve load speed and overall usability.

Professional Training

Full Stack Web Development (MERN) Jan 2025 – Jul 2025
Grass Pvt. Ltd., Jaipur

- Completed hands-on training in MERN stack development, building full-stack web applications.
- Developed projects including blogging platform and recipe website with authentication and REST APIs.
- Implemented responsive UI using Bootstrap and Tailwind CSS frameworks.
- Applied Git-based workflows for version control and collaborative development.

Education

B.Tech in Computer Science 2019 – 2023
Arya College of Engineering & IT, Jaipur CGPA: 7.77
